**Welcome to \$BADA**

**BABY CARDANO Mem. Big big dream. With the power and support of the community, it aims to travel to the moon and take its place on the moon.**

**BADA was founded in NOVEMBER 2021 with the goal of being a decentralized meme project with a purpose to create the first startup exchange for emerging tokens to grow rapidly and for previously released tokens to create an exchange where they can grow safely.**

**BABY CARDANO's mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, BABY CARDANO gives all holders 5% CARDANO and rewards owners 4% ownership Cardano rewards as participation and will manually burn 11% of the total supply, introducing next generation concepts such as decentralized exchanges and more. In the first months of its launch, BABY CARDANO aims to achieve these goals.**

### **\$BABY CARDANIO**

**\$BADA, is a deflationary token that takes a 11% tax from each buy and sell. This tax acts to benefit the project as a whole by taking 5 percentage-points (p.p.) of the 11% tax to repurchase CARDANO \$ADA and redistributing them to all BABY CARDANO \$BADA holders—**

**. 4 p.p. of the tax are added to the marketing/team wallet to make sure that the project is able to succeed in the long term.**

**Another major purpose of the tax is to reduce the incentive of large token holders from buying and selling quickly and damaging the price. This almost always negatively affects the small token holders and we want a fair coin for all.**
